CHAUTAUQUA WEEK JUNE 18TH TO 24TH.

Before it is realized, Chautauqua week with its inspiration, enlightenment and happy hours will have come and gone and the people of Vulcan and district in accord with other towns on the circuit will say "au revoir" to Chautauqua for another year. The Chautauqua program will be given in Vulcan during the week beginning Saturday, June 18, and judging by the already brisk demand for season tickets large crowds will be on hand at each and every performance. The program this year will be the best ever and contains the names of widely recognized thinkers, writers and speakers such as Miss Agnes Laut, Judge George D. Alden, Dr. Jas. L. Gordon and Lethe Coleman. The Lloyd George of the Chautauqua, Dr. Jas. L. Gordon, the great Canadian di-

vine, will deliver his forceful lecture: "Grace, Grit and Greenbacks," on the second night. Dr. Gordon is one of the three great preachers of the world. Miss Agnes Laut, author of "Canadian Commonwealth" will lecture on the first evening of the Chautauqua on "Canada at the Crossroads" and everyone should go to hear her message to the people of this vast Dominion. The Bell Ringers Male Quartet will also contribute to the program on the first evening and everywhere they go they are a sensation. They have a complete set of Swiss bells and certainly know how to handle them. They will ring and sing to your hearts content. Can you imagine anything more beautiful, properly made bells and the truest toned of any instruments. They have been in use for centuries. Come out on the first day and get in tune from the bells and stay in tune and ring true all the rest of the Chautauqua week and you will spend one of the happiest times of your lives. The season tickets for this big week's entertainment are only \$2.50 and are limited in number. Last year a large number of people who left buying their tickets till the last minute were disappointed as when they applied they had all been sold. To attend all the performances they naturally cost them more so get your ticket this year as soon as possible from Mr. Whicher, at Flood, Whicher & Elves offices or C. C. Colwell, at the offices of Hagerman & Co.

DEATH OF OLD-TIMER

The death took place on Sunday, May 22nd at the Holy Cross Hospital, Calgary of Alfred Theodore LaClair, aged 59 years and eight months. The deceased is an old timer in this district and was very popular with all whom he came in contact. Funeral services were held at the Catholic Church, Nanton, on Tuesday at eleven o'clock and was attended by a large number of friends from Vulcan and district, testifying to the high esteem in which the deceased was held by all.

DEATH OF CHARLES KOELNLE

The death of Charles Koelnle, brother of Mrs. Alec Mitchell, took place at her home fourteen miles north of Vulcan on Monday, May 16th. The deceased was 63 years of age.

The funeral arrangements were in charge of A. E. Gilmore, of Vulcan, and interment took place in the Vulcan cemetery on Wednesday, May 18, the service being conducted by the Rev. Father McLaughlin. The deceased gentleman was well known and very popular in Vulcan and district and a large number of friends from all over the district and town attended the funeral in order to pay their last respects to the deceased.

CONSTITUENCY MEETING

At the request of several of the locals in the Little Bow Constituency, a convention has been called by central office to take place in Carmangay on June 3rd, commencing at 1 o'clock.

President Wood will speak in the afternoon while J. C. Buckley, president of Bow River Political Association and Mrs. J. Beaulieu will address the evening session. All U.F.A. members and their friends are welcome to attend.

CARDS OF THANKS

The Reeve of the Village, W. E. Butchart, wishes to thank all the citizens who so willingly gave their services and performed such good work in the planting of trees on the boulevards of the town last week.

Mr. R. J. Scott, Superintendent of the Prairie Nurseries, Sask., who was in charge of the planting of trees in Vulcan wishes to thank all the citizens who offered their services and did such good work in the planting of a large number of trees.

ILLUSTRATION FARM PLOTS AT VULCAN ARE NOW BEING SEEDED

Mr. C. E. Sackville, superintendent of Government Illustration Farms, was in town this week superintending the planting of seed on the new Illustration Farm, owned by Mr. J. H. Cook, about a mile from Vulcan. Although it was suggested to the Department at Ottawa that they start il-

lustration work here, just this year there have been six plots of ground laid out which have been and are now being seeded with different kinds of grains and grasses. There will be seeded this year five acres of brome grass, five of sweet clover, five of rye grass and an additional five of rye grass, as well as five acres seeded to oats, and the balance of the land will be summerfallowed. Keen interest is being taken in this work by the farmers of the community, and the progress and illustration advantages will be watched with interest by both farmers and townspeople during the coming season.

CROPS COMING ALONG GOOD

Under perfect weather conditions the 1921 crops in the Vulcan district are forging ahead and the fields are taking on a decided green appearance. A large number of farmers are altogether through seeding and only a little remains to be done by others. The prospects for a bumper crop are indeed very promising and the farming community are in a very optimistic mood. Grass is growing splendidly thereby furnishing plenty of feed for the stock which are all in the pink of condition. There is plenty of moisture in the ground to bring the crops along and this was augmented by a copious shower on Thursday afternoon last and all indications point to more of the needful. The only drawback with respect to growth is that nights have been rather cold up to about the 12th of this month. The weather has now become warmer, however, and from now on we will be able to see the crops grow faster than ever. At present the grasshopper menace is rather quiet owing to the heavy falls of rain and snow during the month but the ground is reported to show enough healthy eggs to make considerable trouble later in the season. Steps, however, are now under way to combat this menace if it should be necessary and every farmer will take part in the campaign.

NOTICE TO FARMERS

Farmers finding evidence of "Grasshopper Eggs" kindly report same to
A. J. FLOOD,
Secretary-Treasurer
M.-D. of ROYAL, No. 158

LOCALS

Don't forget to get your season ticket for the Chautauqua which begins on Saturday, June 18th. By doing this you will save money and same can be had from Mr. George Whicher at the offices of Flood, Whicher & Elves.

Vulcan was well represented at Champion on Tuesday at the Field Day put on by the citizens of that town. Everyone reports having had a good time.

Mr. and Mrs. H. C. Jacques motored to Calgary on Monday where they spent a couple of days visiting with relatives. Mrs. Jacques' mother, who has been visiting with them for the past two weeks returned home with them.

Change In Train Service effective Sunday May 22nd, 1921

TRANS-CANADA Limited, all standard sleeping cars, Trains 7 and 8 between Montreal, Toronto and Vancouver will be resumed. First train from Montreal and Vancouver May 22nd.

Times for trains at

VULCAN

will be

North Bound	South Bound
5:35 a.m. Daily	12:32 a.m. Daily
6:46 p.m. Daily Ex. Sunday	10:25 a.m. Daily

SOO-PACIFIC Express. Trains 13 and 14 between St. Paul and Vancouver will be resumed. First train from St. Paul and Vancouver, June 5th, 1921.

For further particulars apply to any Ticket Agent or

J. E. PROCTOR
District Passenger Agent
Calgary.

LOCAL ITEMS

Beginning with next Wednesday, June 1st, the business men of Vulcan will close the stores and offices on Wednesday afternoons at 1 o'clock. Their country customers are requested to keep this in mind and govern themselves accordingly in regard to their shopping which should be done one day ahead.

Season tickets for the Chautauqua cost \$2.00, single admissions will cost you about \$8.00. Get your season ticket now while they last. They are selling fast,—first come, first served.—Flood, Whicher & Elves offices.

Fred Bilton, cattle buyer of Calgary, will be at the Imperial Hotel, Monday, Tuesday and Wednesday of next week.

The citizens of Brant and district will hold a field days of sports at Brant on June 15th. Look out for particulars in next week's issue.

W. E. Butchart and A. J. Flood were visitors to Lethbridge on Monday for the purpose of interviewing the Minister of Public Utilities on business in connection with the town.

Mr. and Mrs. George Buck were visitors to High River for a few days and returned home on Wednesday.

A practical demonstration of the Fordson Tractor will be given on the farm of Peter Terry, just across the track near the depot, on Thursday, June 2nd. Mr. T. McGuinness, mechanical expert will be present and will be prepared to answer all questions on the mechanical features of the tractor. This is your opportunity to see the tractor do some good work and at the same time get some information on its construction.

A. Blackstock, graduate of Manitoba Agricultural College and a practical farmer, will give a lecture in the I.O.O.F. Hall at eight o'clock in the evening of Thursday, June 2nd. At this meeting present day farming problems will be discussed and questions and discussions will be invited. The lecture will be illustrated with specially prepared moving pictures. Come and hear Mr. Blackstock's interesting talk.

Lloyd Journey left on Friday evening for Calgary, where he spent the week end on business and visiting friends.

Don't forget the dance to be given under the auspices of the I.O.O.F. in the hall on Friday evening next, May 27. Keep the date open and come and have a real good time.

The regular meeting of the Ladies' Aid of the Vulcan Church will be held on Thursday, May 26th, commencing at 3:30 at the home of Mrs. A. F. Vanskiver.

The work of re-laying out the Vulcan cemetery and the planting of trees under the direction of Mr. R. J. Scott of the Prairie Nurseries, Sask., was completed last week. Trees were also planted on the boulevards of two blocks and in this work he was assisted by the citizens whose property they face. It is to be hoped that all trees planted took good root and will flourish to be an everlasting reminder of the efforts of the present city fathers for a city beautiful.

The second presentation of "All Tangled Up" by members of the Vulcan Citizens' Band given in the Opera House on Wednesday evening last by special request was again a decided success and when the curtains rose the members of the company were greeted with an almost full house. All present enjoyed themselves to the limit and were loud in their praises of the wonderful talent displayed by those taking part in the play.

Born—In Vulcan, on Wednesday, May 11th, to Mr. and Mrs. A. Clark, a son.

Born—At Ensign, on Wednesday, May 18th, to Mr. and Mrs. J. W. Swisher, a son.

Born—In Vulcan, on Friday, May 20th, to Mr. and Mrs. Fred Graham, a son.

Mr. and Mrs. J. W. H. Middleton, of Nanton, were visitors to Vulcan Monday, on business.

Ben Orton, of the Bank of Commerce staff who has been spending his vacation at Field, B.C., returned on Tuesday.

Isaac Jacobson motored to Calgary on Wednesday where he spent a few days on business.

WASTE NOT—WANT NOT

The greatest obstacle in the path to advancement and success of the average worker to-day is waste; and the most valuable quantity is wasted in time. Everybody is aware that for the wage earner the element of time is divided into three divisions—work, recreation, rest. But only a few are alive to the realization that from each of these divisions flows a little stream made up of wasted moments. And these little streams, flowing on through life, merge into one swiftly-moving current of lost golden hours—that can never be reclaimed.

The place to dam this River of Wasted Hours is at the source. You cannot hope to check its onward rush at the middle, much less at its end, where it broadens out into a whirlpool that gently sucks you into a vortex of mediocrity.

If you are a waster, you must cut out the waste. When at work give the best, that is in you. Continually strive, setting up goal after goal. The ladder is high and the rungs are many—and slippery. If you are giving six hours of effort—and that halfheartedly—out of the eight you are being paid for, you are wasting two hours of constructive endeavor every working day. How can you hope for advancement?

When at leisure make the most of it. If your work keeps you away from the sunshine and the fresh air the greater part of the day, all the more reason why your spare time should be spent out in the open as much as possible. And if out of your leisure you cannot find time for at least one hour of upbuilding study a day, thus fitting yourself for a more responsible position, how can you hope to succeed?

The harder a man works, the more he should value his hours of rest. Hours that are spent in dissipation, instead of laying up a store of energy for the morrow's tasks, are wasted hours. They are hours that leave the workman heavy-eyed, dull, lethargic. How can such a one hope to get on? Harbor your resources. Be like the athlete who wins a long-distance race.—Coal Age.

SCHOOL TEACHERS AID RED CROSS JUNIOR DRIVES

Every school teacher in Saskatchewan and Alberta will be asked to help the Red Cross in its work of educating the nation in the peace time objectives of the Canadian Red Cross, an organization official of the June 5-11 national membership drive, announced today.

"It is our intention to invite every teacher, man and woman, to help us enrol the school children in the national organization," she stated in an interview. "We have already secured the assurance from the provincial departments of education that they will be only too glad of an opportunity to co-operate with us in getting the children, every one of them, if at all possible, into the Junior Red Cross. As there are about 200,000 children in schools in these prairie provinces, we look for good things from this movement.

"This," she continued, "is not a dollars and cents movement, but a purely educate one. School children as a whole, are not worth a dollar a hundred financially. We do not want their money. We want their goodwill, their sympathetic understanding of our work, their ready grasp of, and affirmative attitude towards the objects of the Red Cross peace time organization. Some day they will be men and women, doing the work that their parents are doing in the world. If they learn of the Red Cross peace time work during their respective years, all the trouble and expense of educating them in the objects of the peace time work of the society which are necessary now will be unnecessary then. We are building for the future in the Junior Red Cross.

"And yet, even that is only measurably true. Among the Red Cross workers there is always lots to do during times of great stress. Imagine, if you can, the situation, should the City of Calgary or any other western, wooden city take fire and get beyond control. Immediately the Junior Red Cross would be mobilized to carry on relief work, to carry clothes from givers, food from stores and do

a hundred other things adults otherwise would have to do. Help the children join the Junior Red Cross next month. It will pay."

PITHY PARAGRAPHS

Doesn't Seem Fair

Mañ in Belleville has been sent to a lunatic asylum because he had a hallucination that he was a detective. Any number of men enjoying the same hallucination are still drawing their salaries.

Another Wildcat

There cannot be anything in the report that gold has been discovered recently in Scotland. Sure if there were gold in Scotland it would have been discovered years and years ago.

Rubbing It In

Kincardine man says what makes him mad is that to pay his income tax he has to borrow the money from a man who has no income tax to pay.

Counter Proposal to Shaughnessy
You take the low road and we'll take the high road.

Will They Do It? No.

The Brantford Ministerial Association calls upon all good men who voted for Prohibition and laid in a supply of liquor to clean up their cellars. To be consistent they ought to follow that advice, but they won't. They filled their cellars to save themselves and voted Prohibition to save others. It was a rare combination of selfishness and altruism.

Rev. Ben Spence is urging something that is more effective. He is warning all and sundry against stocking up, and threatens legislation to confiscate such stocks of liquor.

A GENERAL PROPOSITION

Rusty stoves and heaps of ashes, Broken glass and window sashes; Busted crates and piles of rot. Adorn the back yard of your lot.

Wasted paper, casks and tires, Discarded rags and barbed wires; Whiskey flasks and the old beer bot' Add blooming glory to your old back lot.

Old tin cans, and kettles, too, Rubbish old, and rubbish new; Iron hoops and—God knows what— Enhance the charms of your old back lot.

Peaceful pleasure—perfumed grime. 'Mid roasting heat of summertime; Fragrant vapor, ne'er forgot, Still lingers round your old back lot. —J. P. C.

THE BUDGET OF 1921

Very little criticism is being voiced by the business community against this year's budget. The intention to make a general revision of the tariff has been given up for a time in view of the result of the presidential elections in the United States and the probability of extensive changes being made in the United States tariff. Accordingly, very few changes are made in the Canadian tariff this year.

CANADA'S MINERAL PRODUCTION

The value of the mineral production of Canada, by provinces, in 1920 was: Nova Scotia, \$30,187,533; New Brunswick, \$2,225,261; Quebec, \$27,722,502; Ontario, \$78,749,178; Manitoba, \$3,500,207; Saskatchewan, \$1,711,580; Alberta, \$33,721,898; British Columbia \$38,044,915; Yukon, \$1,512,006. Coal constituted by far the greater portion of the mineral production of Nova Scotia, Saskatchewan and Alberta.

ADVERTISING AN INVESTMENT

Surplus profits invested in advertising become a real gilt-edge security, and a solid reserve of strength to meet days of difficulty and to overcome quietly but irresistibly and surely the most frenzied of competition.—Printing Art.

That the minimum salary now paid to any priest of the Church of England in Nova Scotia should be \$1,500 was recommended by the Nova Scotia synod of the Church of England in session at Halifax.

The Hon. T. A. Crerar, leader of the Progressive party, is displaying merit in his speeches delivered in Ottawa, and on the hustler in New Brunswick. He far outshadows McKenzie King as a leader and he will forge to the front and become the prime minister of Canada before many years is our prediction.

Lloyd George is sticking to his guns insisting that all nations, friendly or otherwise, must stand by the treaty of Versailles, and if it is Poland, a friendly nation, that gets hit by the strict ruling, it is unfortunate, but nevertheless it must be. Lloyd George is preaching the right sort of gospel.

For crudeness, the Veniot incident of last week took the cake and it was unfortunate that it had to occupy a moment's time by members of the Federal House, or even a denial on the part of the Prime Minister. However, the matter is now settled and Veniot's reputation is now shattered.

Renew Your Membership In The RED CROSS

During the war everybody gave to the Red Cross. In these Western Provinces, hundreds of thousands of citizens joined in the greatest flood of gifts ever poured through a single voluntary organization.

Because the need was vital, the emergency ever pressing, there was little formality of membership. Everybody belonged to and was a part of the war-time organization of the Red Cross.

Red Cross now has peace-time duties just as important to humanity as its greatest service of devotion in time of war. The Red Cross Societies of the world have leagued together in a broad-gauge, carefully planned continuous campaign—

**For the Improvement of Health, the
Prevention of Disease and the Mitigation
of Suffering Throughout the World.**

This work is to be carried out at home, right here in our own country by our own Red Cross and simultaneously in every one of the thirty-one countries associated in the World League of Red Cross Societies. The Red Cross peace-time crusade for good health is separate and distinct from the war work of the Red Cross or the great task that it is still carrying on, growing

out of its care of those who suffered in the war. To endorse, support and carry on its peace programme the Red Cross asks the approval of every citizen through the enrolment of his or her individual membership. The Membership Fee is \$1.00 per year. The payment of this dollar when you enroll your name is all the money the Red Cross is asking of you.

Among the breeders of stock in this district contributing registered cattle of the beef breeds to the Calgary sale on May 25 and 26 are Rush Baughn, Pekisko, Charles Gribble, Cayley, Wm. Eaglesham, Cayley with Herefords and W. J. Tompkins of Gladys with Shorthorns.

One hundred students graduated from the university this season, which is a very good record from an institution which is little more than ten years old. The University of Alberta is doing very good work and is becoming a great influence in the life of the province.

PROVINCIAL NEWS ITEMS

Our greatest need today is for more home-builders and less home-wreckers.

The proposed increase in telephone rates has been deferred owing to objections coming in from all over the province. A further increase will mean a reduction in the number of long distance calls and it would appear that the present rate should be continued. Someone suggests that the free use of phones by politicians should be eliminated, which would mean a big revenue for the province.

At Macleod a company was formed for the purpose of making out income tax returns for the farmers of that locality at a reasonable figure. There is a good opening here for such an organization.

Parties from Washington state that the spring is very backward in that state this year as compared with other years.

Farm labor in the States is available at \$35 per month and many are coming to Alberta to accept work at \$50 per month.

Russian men, who left The Pass district some time ago for the land of their nativity, figuring on making wealth through exchange of their small savings, are scrambling for funds today to buy a return ticket to Canada.

Fruit trees at Kelowna are in excellent condition, prospects being that the crop will be heavier than that of 1919, and present estimates of the apple harvest in the district being 900,000 boxes. Over one hundred acres of new trees have been planted this year.

Oil interest in Southern Alberta is keen at the present time, and developments of an extensive nature are expected this summer. In the past month oil leases aggregating about 50,000 acres have been taken up in the south country.

Thenumber of Canadian residents in the United States during the last ten years has decreased by 87,550, compared with an increase of 27,000 in the previous decade, according to statistics

just given out by the United States Census Bureau. The report gives the total number of Canadian in the States as 1,117,136. French-Canadians number 307,671 and show a loss of 77,402 in the ten years, while Canadians of other origin number 800,455 and show a loss of 10,099.

A large body of stremium is reported to have been discovered near Pentiction, assaying about 70 to 75 per cent. pure. This is a commodity used in the refining of sugar, and refiners have recently been endeavoring to secure supplies from Austria.

An effort is being made to find a market for nondescript horses in Alberta and it is said Belgium presents a good market for same.

Reading advertisements enables you to get more for your money because they tell you where, what and when to buy. And it is a well known fact that advertised goods are more reliable and better value than the unadvertised kinds.

A BACHELOR'S PRAYER

Backward, turn backward, O Time in your flight,
Give us a maiden with skirts not so tight;
Give us a girl whose charm, many or few,
Are not so expose by much peek-a-boo.

Give us a maiden, no matter what age,
Who won't use the street for a vaudeville stage;
Give us a girl not so sharply in view,
Dress her in skirts the sun won't shine through.

Then give us the dances of days long gone by,
With plenty of clothes and steps not so high;
Oust the turkey-trot capers and buttermilk glide,
The hurdy-gurdy twist and the wiggletail slide.
Then let us feast our tired optics once more
On a genuine woman as sweet as of yore;
Yes, Time, please turn backward and grant our request,
For God's richest blessing—but not one half-dressed.

ALL IN THE POINT OF VIEW

Irrigation, News

In the olden days there lived in the vicinity of Shelby a shepherd named Bill. Bill, like most members of his profession, was wont to work faithfully for the greater part of the year and then blow into town and waste his substance in a short period of riotous living. Returning from one of these trips broke, his employer asked him: "Bill, you left here with \$400. What became of it?"

Bill studied a minute and replied: "Waal, I reckon I lost about a hundred an' fifty in a stud game, must have left 'bout a hundred at the Fashion Dance Hall, an' I reckon I spent close to a hundred for booze. "What did you do with the other fifty?" persisted his boss. "Can't remember exactly," replied Bill after due reflection. "I guess I must of just natchurally fooled that away."

Considerable acreage in the Lethbridge district will be planted in corn by former North Dakota farmers, who raised it very successfully there and

feel certain that they will make a success of it here. There will also be a big addition to the area planted in sunflowers this spring.

Approximately half a million pounds of timothy seed grown near Pincher Creek has just been sold to a large Chicago seed firm. Timothy seed has been grown in that district for several years with considerable success, and is very profitable.

The Canadian Pacific liner, "Empress of France," established a new record when she recently made the run from Liverpool to St. John in six days, eight hours and forty-two minutes actual running time, an average of 19.01 knots, or 22 miles an hour. The "Empress" brought out 1,466 passengers.

The steamship "M.S. Dollar" has arrived at Vancouver after completing a 26,000-mile around-the-world trip. This ship sailed from Vancouver on October 9th, 1920, and it is claimed to be the first around-the-world trip made by a ship flying the Canadian flag.

can never be well again. They can have no part in the work of reconstruction which we all hail with so much favor and hope. But with their fallen comrades they have proved to us that the world is worth saving and worth reconstructing. There are hundreds of soldiers and their families in this province who are not yet fully or even partially established. They need the Red Cross service. They disdain, and rightly so, the efforts of private charity. The Red Cross can do so much to alleviate and prevent suffering.

THE FOREST FIRE SEASON IS HERE

Five settlers who were recently placed on trial for causing disastrous forest fires through carelessness in "burning off" their land gave as their excuse, "We did not know that little fires could escape from our control so quickly." This is the story of almost every forest fire in Canada. From five to eight thousand occur year by year and in most cases through thoughtlessness and indifference. When one considers that the forests of just one province, Quebec, are valued at 600 million dollars just as they stand in the "wilderness," and that timber is the one member of the family of our resources most easily and quickly destroyed, the seriousness of all forest fires is at once recognized.

In a recent statement, the Canadian Forestry Association urges precautions by campers and smokers as follows:

When in the woods, do not throw away a lighted match or tobacco. Make your camp fires small because they cook better and are easily put out. Never build your camp fire near leaves or moss or in a dry bog or against an old log. Select a stony or gravelly soil if possible. When leaving camp, put your fire completely out, and that means "dead out!" you can do it with a few pans of water or a shovel of earth.

FAIR REPRESENTATION ON LEASE DISCUSSION

Stock Growers' Association Interviews Premier; Wylie, Maple Creek, Suggested As Member.

Three very reasonable requests were submitted to Premier Stewart while he

was in Calgary this week on his way to Ottawa by D. E. Riley, president, and W. F. Stevens, secretary of the Stock Growers' Protective association, in connection with renewing grazing leases, as follows:

1. That in the event of the province identifying itself with the investigation, representation on this commission consist of an equal number of stock growers and farmers.
2. That the question of renewing leases should not be combined with any other issues.
3. That as the growers of commercial beef cattle are the people most interested in the issue, the Stock Growers' Protective association, which is composed almost entirely of that class, be consulted regarding the personnel of the commission.

THE PLAYFULNESS OF TELEGRAMS

A doctor and a parson of the same name lived on the same street. The padre died, and about the same time the doctor went to Aden to a post there. On his arrival he telegraphed home to his wife, but the wire was sent to the padre's widow by mistake. It was in the following terms: "Arrived safely; heat terrific." As usual the story is hard on the parson.—Cape Argus.

A STRAIGHT ISSUE

The coming bye-election in Medicine Hat will be a fight between Premier Meighen's policy of tariff for revenue and necessary protection, and Mr. Cretar's policy of free trade. The Liberals have decided to leave the field clear to the two candidates representing these policies. In that respect it will be a more interesting test than any of the recent bye-elections, where the issue was confused by the presence of a number of candidates.

BLACKIE WILL HAVE LIGHT

The Blackie Electric Light Co., are going ahead with the installation of the generating plant and within the next week should be ready to deliver current. The question of the franchise will be submitted to the council for their approval at their next meeting. If approved, it is then submitted to the Public Utilities Commission at

Edmonton and if passed by the commission is ready to be voted upon by the ratepayers of the village. This looks like an unnecessary amount of formality, especially in connection with a village the size of Blackie and it also necessitates considerable delay in the construction of the transmission line. It therefore behooves everyone who has any interest in the welfare and prosperity of the village to make application for service or signify their approval or otherwise of the proposed service, so that the plant may be completed at the earliest possible date. We understand that the proposed franchise is practically the same as has already been granted by upwards of twenty villages and towns in Alberta, some of which are many times larger than Blackie.—Lethbridge Herald.

KILLING SURPLUS BUFFALOES

The increase in the number of buffaloes in Buffalo Park, Wainwright, Alberta, has reached such proportions that it is proposed to slaughter 1,000 of the animals this year. It is expected that a considerable sum will be realized from the sale of the meat, hides and heads.

Young Eitel Frederick, one of the offspring of the old kaiser, has been arrested for packing money out of Germany, to father in Holland, which rather indicates that young Eitel Frederick is a chip off the old block.

LOCAL ITEMS

The gigantic Clearance Sale put on by A. G. Spooner on Friday last has proved to be the most successful sale he has ever had. Crowds of people have visited the store during the past week and not one has gone away without making a purchase of some of the many bargains which are being offered for quick clearance. If you have not already got what you require in the way of suits, etc., for yourself and your boy make it a point to get in as early as possible to get in on the bargains.

A number of young people from Vulcan attended the dance at Carman-gay on Friday night and report having had a good time.

The Vulcan Band has been requested to postpone their visit to High River which was to have been made on Sunday next. They will go there on Sunday June 5th, to take part in some ceremony to be held in that town on that date in addition to giving a concert in the park.

There will be a meeting of the Vulcan local U. F. A., on Saturday, May 28th, at 3 o'clock. Business will include selection of delegates to attend Convention at Carman-gay on June 3rd.

L. H. Stack was a business visitor to Calgary on Wednesday.

Mrs. Pete Peterson, a former resident here, arrived in Vulcan last week and will be in town for a few weeks on business.

Services will be held at Ensign Sunday, May 29th, at 3 p.m.

In connection with the distribution of seed potatoes in connection with the School Fair, Rev. A. E. Hayes gives the warning that the potatoes have been treated with Bichloride of Mercury and under no consideration may they be used for human or stock consumption.

RED CROSS NEWS

Mr. C. H. Kelly made a flying trip

to Spring Coulee last week end.

Mr. Willard Snow and Mr. J. Manley have been down at Mr. Snow's ranch on the Little Bow for the past two weeks.

Misses Loraine and Leah Woodman, who are attending business college in Calgary, came home Friday night to spend the holiday with their parents, Mrs. and Mrs. E. A. Woodman. They will be warmly welcomed by their many friends in the district. Mr. Woodman has just purchased a fine car from Mr. J. L. Kerr.

A committee meeting of the Women's Institute was held at the home of Mrs. J. Murdoch, on Friday evening, to make final preparations for the picnic on the 24th.

HEARNLEIGH NEWS

The regular monthly meeting of the Berrywater U.F.W.A. was held at the home of Mrs. J. K. McLean on Thursday, May 12th. Quite a large number of the members were present. It was decided to organize a junior U.F.A. with Miss Adams as convener. This will, no doubt, be very beneficial to the younger members of the community. Very interesting papers were given by Mrs. Smith, Mrs. La Chapelle, Mrs. Oldfield, Mrs. McLean and Miss Robinson on "Food for a Child of one and two years," "Value of Milk," "Cooking of Cereals," "Cooking of Vegetables" and "Food for Children" respectively. A song was rendered by Miss Adams and after a delightful lunch the ladies departed to their respective homes.

On Saturday, May 14th, the Junior U.F.A. was organized in the Berrywater School and the following Officers were elected: President, Miss Olive Carr; Vice-President, Max Sinclair; Secretary, Miss Hazel Carr. Meetings will be held every fortnight.

A concert and dance will be held at Berrywater School on Friday, June 3rd at 8 p.m. Concert and supper \$1 per couple; dance 50c. Everybody come. Proceeds for Piano fund.

CHURCH NEWS

The theme Sunday evening at the Union Church was "The Severity of Christ." We speak a great deal and cannot speak too much, of the tenderness of Christ. We may be sure that the gaze of centuries has not been at fault when it singled out the gentleness of Christ. It has had a softening effect upon mankind. We feel how real his tenderness must have been.

But if the tenderness was matchless we must not forget that there is another side. There is a certain severity in the Man of Galilee that immediately arrests the onlooker. But we must not think that His severity was in any way antagonistic to His gentleness. The French have a proverb which says "There is nothing so tender as the austere man." There are hours when it is cruel to be gentle. When Jesus dealt with inquirers, how pointed He was. He dealt with the issue, instead of avoiding the issue. He told Nicodemus swiftly and sharply what was required. It floored the man. It was severe handling but it was infinitely kind. It shattered his little code into a thousand fragments and shook him clear of his pharisaic way of thinking.

Jesus was most merciful in dealing with the repentant sinner, but upon the Scribes and Pharisees He turned with burning words. Jesus in judging had not a tinge of pleasure. It was part of the burden and sorrow of the cross. It was inevitable if men were to know the right, that sternly and straight wrong should be condemned. You must clear away the ruins if you would found the palace. You must punish the traitors if you would save the kingdom. And it was because the Scribes and Pharisees were really traitors to God and to light and to spiritual liberty that Christ scourged them with a condemnation that was unutterably and appallingly severe. Much of the liberty we have today has been purchased by the severity of Christ.

To-day we need a word to remind us that the most genial Christ can be stern and severe. God grant that we may not misinterpret it. His love is matchless, His gentleness is infinite, but we dare not ignore the severity of Christ.

The spirit of Jazz turned loose in five frolicking reels of mad merriment! And in the midst of the blare of saxophones, the clatter of drums and the shuffle of dancing feet, a love story, sweet and clean as a country wind. You'll LOVE this picture!

ELECTRIC ENERGY FOR OUR RURAL DISTRICTS

Assistance by Farmers During Slack Periods Would Reduce Costs.

Generally speaking, it may be said that Canadian industrial centres are exceptionally well provided with cheap electrical power, mostly hydro-electric. As Canada's wealth and prosperity are due, in a large measure, to her agricultural development, it is highly desirable that electric service should be extended also to the farms to enable them to enjoy the full benefits of this service.

The Electric World recently remarked editorially that rural electric service helps to solve national problems. Anything which encourages decentralization of the population, by making rural districts better places in which to live, ought to be supported by every available means. If electric light and power were generally available in the agricultural regions, there would be more encouragement for local industries and better opportunities for building up country districts.

Other provinces, including our prairie provinces, should work along the same lines as the Hydro-Electric Power Commission of Ontario. New legislation was obtained in this province last year to facilitate rural electric distribution. Men are engaged continuously in making surveys in different parts of the province as to the

kind of farms, and the market for power.

It has been suggested that the farmers could help build the lines. During several months in the year the farmer's work is slack, and he could assist in constructing lines if it were to his own benefit to do so. There are several different suggestions, one, that all the lines be built by the government; another, that the farmers supply the labour and cartage at a certain rate; and third, that the commission supply a working superintendent who would show the farmers how to build the lines, haul poles, dig holes and string the wires, with the exception of tying-in, which would be done by the linemen.—L. G. Denis.

The fellow who waits till to-morrow—waits—and waits. And the years glide by—to find him still waiting.

ESTRAY

ESTRAY—Estray on Section 8-17-24-4, one filly, three white stockings and white face, no visible brand. Owner can have same by paying expenses. Apply J. G. Graham, Vulcan.
